The cry is now raised that Mr. BLAINE will name the candidate, and that the nominee will be what is distinctly known as "

This might be true if the Republicans were still in power. As they have tasted the sweets of retirement for four years and are now in a fair way to be as effectually banished from the Federal offices as the Democrats were for twenty-four years prior to 1884, the Republicans will probably look for a nomince who will be the most likely to unite the party. They will want a candidate who ands a chance of carrying Indiana and Connecticut, Indiana and New Jersey, or New York, besides keeping all the Western Republican States in line.

There will be no BLAINE and anti-BLAIN in the Chicago Convention.

Some speculators and scalpers of the Prod uce Exchange are making an effort to nullify the people's Saturday Half-Holiday Law. Last year the Exchange adopted resolution to close at noon on Saturdays. This year it is proposed to change the rule so as to enable the Exchange to keep open on Saturdays as on any other day.

We publish to-day the views of some of the best men on the Exchange, who express the opinion that the Saturday half boliday is positive advantage to its members and to its pusiness, and avow their opposition to the proposed new rule. It is to be hoped they will defeat it. If not, as the Exchange holds a charter from the State, it should be forced to obey the law, which the Governor has resolved shall be fairly tested before being

EXECUTIVE FLIPPANCY.

Mayor Hawitt seeks to justify his obstruc tion to the burying of the electric wires by sneering at the idea of "danger" to human life from the electric current. He finds that only two deaths have occurred from loose wires, one on East Broadway and one on the Bowery, cases of " linemen." The Mayor forgets the death that occurred outside the window of a Broadway store, probably because the victim " only a lineman." But any inmate of the building, if he had touched the wire, would have been instantly killed.

" Of course, if one of those wires strikes a person he is a gone coon," says the Mayor. " and I don't propose to have any charges of manslaughter brought against me." Seriously, we ask Mr. HEWITT if this is a proper treatment of such a serious subject by an intelligent and humane man.

A FAMILY QUARREL.

It does not look as if the election of ex-Mayor MURPHY, of Troy, as Chairman of the Democratic State Committee was so much of a "compromise" as has been represented. The Troy Press, Mr. MURPHY's organ, bitterly assails D. Capy HERRICK, the successor in the Albany leadership, who was Mr. MURPHY's opponent, and charges him with treacherously plotting against Gov. Hill.

The Press alleges that Mr. HEBRICK's personal cause of anger against the Governor is the latter's refusal to appoint the Albany leader to a vacant Supreme Court Judgeship, and says that Mr. HERRICE has done more " to injure the prospects of the National Administration in Albany County than any Republican known." This quarrel ought to be stopped, if the Democratic State Committee, of which Mr. MURPHY and Mr. HERRICK are both members, is to work with harmony and effect in the campaign.

Five thousand potted plants, most of them in the full loveliness of their bloom, had been furnished in excess of those needed to Wednesday. These were cared for by TH EVENING WORLD and distributed among the city hospitals.

How they were disposed of, with what pleasure they were received and the great good they did is best told by the hospital authorities.

"What shall I say about them?" she exclaimed. "There has been no previous donation with which to compare them. Such
beautiful gifts to the hospitals are too infrequent. The Flower Mission keeps us well supplied with cut flowers, but they don't last long

it is necessary to preserve them kept so long

The visit to Miss Kenealy was productive of a very good suggestion—that the hospital should have more than one Memorial Day during the year. One day may be enough for the dead, but for the living, who would have a life of suffering brightened, more should be provided.
"Delightful! Delightful!" was the verdict of Bupt. Le Roy, of the Woman's Hospital. "Everybody is talking about them to-day. The character of our patients is

against the amendment of the present rule, because it will violate the charter of the Exchange as well as the law of the State. It is a silly thing to make a kick at the present time because summer is coming on, and it is hard to get votes against such a law a this season of the very I think the proposed amendto get votes against such a law a this season of the year. I think the proposed amendment will be defeated by a large majority.

J. G. Marshall, one of the nine brokers who represent the firm of McIntyre & Wardwell ou the floor—I am very well satisfied with the law as it is, and so are all the men in our office. It does not interfere to any extent with business and enables a great many employees to get away in time to enjoy a much with business and enables a great many employees to get away in time to enjoy a much needed rest. I shall vote against any change, and have heard a great many others say they will do the same, both clerks and heads of firms. I think the amendment will be rejected.

John Weir, of the firm of Weir & Hallett, grain merchants, and a member of the Board of Managers—1 am decidedly against the amendment, and I think it will be defeated without question. It not only violates the

amendment, and I think it will be defeated wi hout question. It not only violates the charter but the law of the State, and as long as the law is in existence it ought to be observed. It has been said that the provisions of the charter with reference to holidays does not apply to half-holidays, but in my opinion it is all the same thing. The charter says that the Exchange shall be closed on all holidays, and that ought to settle the question. It does, in my mind, beyond a doubt. There are a good many who want it kept open, but they are, as a general rule, the scalpers and small traders. After yesterday's parade Capt. Donald

Archie Montgomery, one of the most popular traders of the grain pit—You may say I am against this movement of the kickers. I would like to see things remain as they are, especially as we are now observing the law, and acting in accordance with our charter. It is foolish, too, to bring up the question at this time, and for this reason alone it ought to be defeated, as I am confident it will be.

E. F. Moore, grain broker—Personally I am opposed to the amendment, but I am not quite satisfied yet whether the interests of the trade do not demand that the Exchange shall be kept open, if this can be done legally. I want to know more about the matter before I decide.

shall be kept open, if this can be done legally. I want to know more about the matter before I decide.

J. S. Baldwin, flour—Personally the half holiday would be advantageous, as it would give me a chance to catch up with my correspondence. I will vote according to what I think will be to the general interest of the Exchange. I would like to see a whole holiday on Saturday.

John Brown, of Roland & Co.—The half holiday is a good thing for the clerks and others in our business. However it may affect business, most of us are willing to sacrifice a little money to obtain the health and enjoyment of our employees. I think that in winter the clerks are better off in the office.

A flour broker who did not wish his name printed said he did not see how the proposed amendment could be adopted legally. The Exchange is governed by the laws of New York State, and he did not see how those laws could be defied.

Frederick Roberts, of the firm of Cowing & Roberts—The proposed amendment is unpopular, and will not be passed. The voters will want their half holiday. I will do all I can to defeat the proposed change.

A gentleman representing Sawyer Wallace did not think that the half holiday affected trade on Saturday. If speculators had to trade on that day they would do so before noon. He was in favor of closing.

George Farquhar—The law ought to be adhered to. It is a great advantage to employers and clerks to get away. There is no loss of trade. Practically, Saturday is an idle day, and I would much rather see the boys play down the river than in the office.

J. S. Roland—I am in favor of keeping on and closing at the hour we have been closing—noon. I think that the volume of trading could be done as well before 12 as after. The law has not had a fair trial. Another reason why we should have the half holiday is that these people would have time to get ready for Sunday.

C. A Smith, representing the Central Milling Company—To come here on Saturday is time fooled away—a perfect farce. If a man works a half day he might as well work all day. I am in favor of closing all day. Two-thirds of the men who come down on Saturday come from force of habit; they don't trade, but just stay around and look on.

To the poor little ones in the hospital at Forty-second street and Lexington avenue THE EVE-ING WORLD flowers were grateful examples of Nature's perfect and most beautiful work and they received the bright blossoms with great delight.

Warden Avery expressed his thankfulness for the donation and said that those which are not distributed through the wards will go to beautify the plot of green in front of the hospital.

table viewing the gathering with a delighted eye.

After dinner had been partaken of the fun commenced. The famous quartet, Messrs. Doherty, Carey, Logan and Freel, sang several songs, followed by Sergt, James Lynch, who spoke on the Prohibition question. Sergt, William Hogan sang "I'll Go Back to My Old Love Again," and Patrolman O'Ntell rendered a basso solo. Officer Dowling vocalized considerably, as did Officer Aiken, Messrs. McCabe, Logan, Bannon and Vallely performed several slight-of-hand tricks, while Capt. Grant and Sergt, Lonsdale told of their war experiences. or their war experiences.

When the hour for departure arrived the

men rose in a body and gave three hearty cheers and a tiger for their Captain, who re-turned thanks in a happy speech.
